Final Website Peer Review – 50 points
May 15. 5:00 p.m. Computer Lab

• Author present for Peer Review at start of class
• WebEx Page Menu accessible from my “class” page
• There is a working link from WebEx Page

Points will be deducted for any the following not incorporated in your web site design.

• Grid layout, full screen width.
• Obvious or stated objective in Header relevant to the theme.
• Descriptive link names and working links to two pages that you created plus existing WWW pages. The support webpages do not need content for this review but must have a descriptive link.
• Readability – font style, size contrast. color
• Adheres to the basic web page design criteria “dos and don’ts” discussed in class and the paper available from my website “Principles of website design for an appealing web site.”

Address the comments from Interim Peer Reviews with corrections as applicable.
Keep the links to Interim website from WebEx menu.
Final Project is to be a separate updated and improved webpage linked from WebEx menu.

Creatively include the following:

• At least two support pages that you create
• At least one link to existing WWW page
• Link to your blog,
• At least one photo-shopped image
• Animation GIF or Flash or both,
• Sound
• Videos
  ➢ Embedded from Youtube
  ➢ Slideshow created from OpenShot
• All applicable to your theme. Can be on home page or support pages.
